## TireMaster features you won't get from Goodyear/VAST

- ✓ Built-in accounting system which consolidates data for inventory and financial reports
- ✓ Secure audit trail
- ✓ Integration with national and regional wholesale warehouses
- ✓ National accounts processing and government support claims for all major tire manufacturers and fully integrated with the TireMaster accounting system
- ✓ Integrated customer loyalty programs

## Third Party Integrations

Similar to GBMS / VAST, third-party integrations like Parts and Labor Guide, Fitment Data etc. are available to meet your business needs.

## Converting to TireMaster Software from GBMS

To avoid data loss, user error, or other setbacks that are all-too common with implementation and installation of new software, our implementation specialist will work with you on all your software needs. The conversion will include data files for customers, vehicles, inventory, invoices and vendors. You'll have the option to host TireMaster software services in the cloud or on your own hardware.
